Kiwanis Meets At Maple Forest

The Grayling Kiwanis Club and their wives and guests met Monday evening with members of the Maple Forest Association at the Maple Forest Town Hall. The program was under the direction of Les Hunter, chairman of the Kiwanis Club's Agricultural Committee, and Don Dobson, secretary of the Crawford County Dairy-mens Association.

The meeting started off with a real old fashioned farm home dinner served to the group by members of the Maple Forest Home Extension Club. Following dinner group singing was enjoyed and program chairman Hunter then introduced Hugel Leonard of Lake City, sanitation officer for the District Health Department.

Mr. Leonard talked at some length on the dread livestock diseases, anthrax, which recently broke out in southern Michigan and of which several cases have now been reported as far north as Grand Traverse County. The information was of vital importance in the dairy region of Maple Forest and likewise of intense interest to the visitors due to the disease's threat to northern Michigan's dear herd which is also susceptible to the killing virus.

Mr. Leonard then presented a series of slides which were accompanied by sound explaining in graphic methods the steps taken on a dairy farm to insure pure, fresh milk being delivered to the dairy pickup trucks. The slide picture was an eye-opener to many Graylingites but mostly an old story to the farm folks of Maple Forest. Many colored slides of farm scenes in Maple Forest and of the annual Maple Forest Flower Show were then screened.

The evening wound up with a square dance to which the entire community of Maple Forest had been invited. Music was furnished by Mrs. June Taylor and Bob Meaker. Calling for the square dancing was done by Earl Burns Mrs. Opal Hamblin, Archie Feldhauser and Ted Baynham. The evening was enjoyed by well over 100 people and a lot of credit for the program planning and work must go to Les Hunter.

Next Monday evening, the Kiwanis Club will meet with the Grayling Women's Club for a potluck dinner and program in the basement of Michelson Memorial Church. Club members whose wives are not members of the Women's Club are invited to bring their wives. Each couple is to bring their own table service and a dish to pass. The Women's Club with some Kiwanians have worked up several skills to present as the program following dinner.

County Once Closed To Deer Hunting

Crawford County at one time was closed to deer hunting for a period of five years, 1918 to 1922 inclusive according to a deer season study report by the game division of the Conservation Department. This fact was brought out when Fred Carr of Grayling wrote to the Department for information on the subject due to his interest in the apparent changes coming this fall in deer hunting regulations in this area.

The report states that in the year 1920 practically all of the deer hunting territory in Michigan was closed to hunting. The only counties listed as open to hunting that fall were Mecosta, Isabella, Saginaw, Gratiot and Montcalm. None of the counties of the Upper Peninsula have ever been closed to hunting while southern Michigan counties were closed from 1928 to 1947 inclusive but all were opened in 1948.

Mr. Carr stated that he believed the two deer law whereby a hunter might take two bucks or a buck and doe was last used during the hunting season of 1915. The first county ever closed to deer hunting according to the game division report was Alpena County which was first closed to hunting 1897 and remained closed until 1903. In 1903, fifteen counties went on the closed list. This roughly took in the Lake Michigan shore counties from Traverse City south to the central part of the state. In 1944 Leelanau County was opened to hunting after a closed season of 13 years duration. This was the last county to be closed in the deer herd area of the northern part of the Lower Peninsula.

Trout Fishing April 26

This scene will be common to Michigan's many trout streams beginning April 26. Trout fishing attracts a breed of fishermen about as rabid as they come. They invade the streams armed with all the usual trappings, including the best up but cherished topper which frequently serves as more than a sunshade. Expect 400,000 Anglers To Open Fishing Season Saturday

The most liberal fishing season kickoff in years, April 26-27, likely will draw about 300-400,000 anglers or as many as a third of the 1,200,000 some licensed anglers who will wet a line before 1952 ends.

The conservation department anticipates fewer trout fishermen, 40-50,000, but more general season and other anglers, 260,000 or more, as compared to last year. An estimated total of 250-300,000 trout and non-trout fishermen celebrated separate openings in April and June in 1951.

hospital and medical
bills with

BLUE CROSS-BLUE SHIELD Plans
sponsored by Michigan hospitals and doctors!

If you had to go to the hospital tomorrow... if someone in your family had to go... how would you pay the bill?

The stark, cold facts are that 1 in every 4 Michigan families face hospital bills this year!

Disturbing as these figures may be, the solution to the problem is extremely simple. Several years ago, Michigan hospitals and doctors set up non-profit plans to offer protection to the people of Michigan against the cost of surgical and medical bills.

These are the Blue Cross-Blue Shield Plans which in 1951 alone provided more than 378,000 people in Michigan with benefits worth over 57 million dollars.

What BLUE CROSS - BLUE SHIELD Plans Do:

BLUE CROSS Comprehensive Group Hospital Plan covers a broad range of benefits (up to 120 days of care) in any one of 190 Michigan Blue Cross participating hospitals. NO CASH LIMIT on benefits covered.

BLUE SHIELD Medical-Surgical Plan pays generous amounts for stated surgical procedures and provides substantial amounts towards your doctor's hospital visits in non-surgical cases.

Best protection—lowest possible cost! Several Blue Cross-Blue Shield Plans are available. The average cost is about 9 cents per person per day.

Who is eligible for Blue Cross - Blue Shield protection?

Firms employing 5 or more people may be eligible for Comprehensive Group health-care protection. Agricultural workers can join through Farm Bureau Discussion Groups or Grange Groups. Get information about group enrollment from your nearest Blue Cross-Blue Shield office.

THIS IS YOUR TICKET TO WORRY-FREE RECOVERY!

This membership card is all you need when admitted to a Blue Cross participating hospital. Simply show it to your doctor and to the admitting clerk. Your health-care benefits are taken care of automatically, without red tape... no embarrassing questions asked... no complicated claim forms to fill out. Blue Cross - Blue Shield pay hospitals and doctors directly.

Mobilgas Economy Run

New Ford Mileage Maker SIX Thriftiest in its Field!

Ford's the Class "A" Winner for 3rd Consecutive Year!

Again this year... as in the past two years... Ford was first in gas economy over all other cars in its price class in the Mobilgas Economy Run. In this toughest test, a stock model Ford Six equipped with Overdrive (optional at extra cost) averaged 53.855 ton-miles per gallon and 25.463 actual miles per gallon.

This was a very special triumph for Ford's All-New Mileage Maker high-compression Six. For now, with its new design providing 101-horsepower and free-turning overhead valves, Ford is definitely pound-for-pound the most economical low-priced car to run! Yes... Ford's thrift was clearly proved by the 1,415-mile grind from Los Angeles to Sun Valley. And a very important factor contributing to this victory is Ford's Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas.

*The AAA Contest Board determines the winner by a "ton-miles per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car's weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons consumed.

Make It Nationwide

Some time ago, the state of New York passed what is known as the Feinberg Law, prohibiting employment in the public schools of people who advocate the overthrow of the government by force and violence. The law obviously aimed at teachers who are communists or party line followers. However, a great hue and cry was raised to the effect that the law violated the constitutional guarantee of free speech, and the matter was taken into the courts. Now the Supreme Court has ended the legal controversy, by declaring the law constitutional.

It is difficult to see how any thinking person with the interests of a free America, at heart can do other than enthusiastically applaud this verdict. One of the primary goals of communism is the utter destruction of free speech and all the rest of the basic freedoms—as witness Poland, Czechoslovakia and the other Iron Curtain countries, no less than the Soviet Union itself. A communist is the slave of his ideology. Communist doctrines hold that any lie or deception is both justified and necessary if it will advance the end of world communism—which means world enslavement. That goes for the communist teacher as well as any other follower of Marx, Lenin, and Stalin. And the communist teacher is the most dangerous of all—for he poisons and betrays unformed minds which cannot tell a subtle lie from a profound truth.

Every state should have a law on the Feinberg model. Communism in the schools must be ruthlessly stamped out.

Give the little lady a hand

THIS ad is addressed to husbands—Husbands who've yearned for the thrill of sitting behind a broad hood packed with horsepower—and the pride of rolling down the street in a car that tells the world, "Here's a man who knows the finest thing on wheels."

But husbands have wives. And wives have been known to say, "No big cars for me. They're too hard to handle."

Well, we have an answer for that one. It's a ROADMASTER with Buick's new Power Steering† And Power Steering takes over any time the steering gets tough—works like a helping hand—reduces the effort of turning the wheel of a car at a standstill to about the same effort it takes to pick up a mink coat.

BUT out on the open highway—with a clear straight stretch before you—your hands still have command of the wheel—you can feel that sure, firm, easy and eager responsiveness that's a part of the fun of driving.

The rest of the fun is in something else that's new this year—the highest horsepower that a Buick Fireball Engine has ever delivered — and an Airpower carburetor that lets loose an extra reserve of power when needed, and still adds extra miles to your cruising range on each tankful of gas.

So we suggest a family demonstration. You'll both like the hushed and restful silence of this superbly able traveler. You'll like the harmonious beauty of its

interior, and the deep and luxurious softness of its seats.

You'll like the velvet-gloved grip of its Wide-Band brakes, and the most capacious trunk in Buick history.

You'll like the smooth surge of Dynaflo Drive, and you'll like—but why waste time talking, when you could be finding out more than we can ever tell you? How about making a date to do that right now?

†Optional at extra cost on Roadmaster only.

Confine Fishing For Trustees

Editor's Note—The following story was written by Kenneth Peterson, outdoor editor of the Port Huron Times-Herald. Ken is well known here, the son of Hans Peterson of Grayling.

You can fish the East Branch of the AuSable this season without fear of being molested by trustees from the prison camp at Hartwick Pines.

This assurance is given by Gerald E. Eddy, director of the Department of Conservation.

Mr. Eddy said the river had been declared out of bounds to trustees after a "prisoner" walked away from camp late in 1951.

Last season it was common to see two and three prisoners fishing abreast down the stream near the Pines. This writer fished through seven one afternoon, and his wife was frightened from the stream by roving trustees.

Apparently Mr. Eddy does not object to prisoners fishing. He said there might be some lakes on which they could fish so long as public interests are not affected.

But he said such fishing should be under supervision of Department of Corrections people.

We brought the matter of fishing in the East Branch to the at-

Ardith, the daughter of Mr. and Mrs. Ernest Winston made a scholastic record of 4.23 out of a possible 5. Reta, the daughter of Mr. and Mrs. Elroy Barber made a record of 4.03. In third place was Neil Plagens, son of Mr. and Mrs. Arno Plagens, with 4.01. He was given Honorable mention. Ardith was active in 4-H work in all 4 years of High School. She is also president of her class and served as vice-president last year. Reta was also active in 4-H work during her 4 years of High School and also held the office of treasurer all four years. She played on the girls basketball team two years and was a cheer leader for three years. Both girls are planning on entering North Eastern School of Commerce at Bay City this fall.

tion of Governor G. Mennen Williams. It was referred to Clark J. Adams, legal advisor to the Governor.

Mr. Adams explained the general feeling that much has been accomplished with the prison camp program, both as to rehabilitating prisoners and improving wildlife forest and stream conditions.

But he admitted such a program should not be carried to extremes. Our letter was forwarded to the Department of Conservation and Department of Corrections.

Mr. Eddy promised in his letter that "in a short time" the two departments would formulate a policy with regard to prisoners using outdoor areas as part of their rehabilitation program.

FISHING SEASON

(Continued from Page 1) — as his wife, may purchase a 10-day temporary license for \$2 or the annual license for \$3.

Department provides over 500 public fishing sites on lakes and streams, over 100 of which offer access on northern streams alone. There also are forest park and some fishing sites where the fisherman can pitch a camp by or close to trout waters.

State fish hatcheries expect to have some 200,000 legal-sized trout in streams by opening weekend. More than 200,000 under-size trout already have been planted to supplement natural reproduction. Over 3,000,000 trout, more than a third legal-size, were released in 1951.

With fisheries research demonstrating that especially pan-fish

can stand considerably more hook and line pressure, the general angling season on bluegills and sunfish starts two months earlier than in previous years. Also legal April 26 are northern pike, walleyes and muskellunge.

Research results already caused inland non-trout lakes throughout the state and Great Lakes and connecting waters to be opened to year-round fishing for crappies, perch, rock bass, warmouth bass, white bass, whitefish and lesser species listed in the fish digest. These fish are rod targets on trout lakes and streams on April 26.

Daily creel limit on pan fish is unchanged at 25 in any combina-

tion of which not more than 15 can be bluegills. There is no minimum size limit. White bass must be seven inches long, daily possession limit is ten. Whitefish of any length may be taken, maximum daily limit is seven.

On northern pike and walleyes the daily maximum is five in any combination from inland lakes and streams. Minimum sizes are 14 inches for northern pike and 13 inches for walleyes.

Most of Michigan's 11,000 inland lakes and over 36,000 miles of streams offer some type of fishing, along with state's portions of Great Lakes and connecting waters.

Governor to Crown National Trout Queen

Governor G. Mennen Williams will officiate at the Coronation of the 1952 National Trout Queen at Kalkaska, Saturday evening April 26, 1952. The Coronation is an outstanding feature of the Annual three day event.

The Queen is selected by judges who are well known Press, Outdoor writers and Radio announcers. The present Queen is Mary Lou Bossingham of Interlochen, Michigan who will be present over the festivities Friday and Saturday evening, and will relinquish her crown Saturday evening at the Queen's Ball.

Queen Mary Lou will have a big day Saturday, April 26th, as she will be married to Douglas Charles Denny.

It is expected to have at least seven contestants in the race for Queen. Cities already sponsoring candidates are, Battle Creek, Frederic, Grayling, Manistowish, Alden, Kalkaska and Traverse City.

The National Trout Festival parade will be held Friday, April 25th, at 1:00 p. m. and will consist of six bands. Many cities will enter floats, a much larger parade than ever held before is promised by the merchants.

After the parade, Mort Neff, the new National Trout King will be crowned, and will issue his proclamation, the new king is a well known Outdoor writer and television announcer.

The Queen's Ball to be held at the High School Auditorium will have the splendid Orchestra of Max Henderson of Radio Station WTAC Flint, Michigan. This Orchestra has always been very popular in Kalkaska and all over Michigan.

The Boardman pond in Kalkaska will have a large planting of rainbow trout, all legal size and this will provide plenty of sport on the opening day.

The Conservation Department have notified the National Trout Festival Association that all streams in Kalkaska County will be planted before the season opens. A horse pulling contest will be staged again, as it attracted many contestants and much interest the last two years.

The Coon Dog Trials will also be held again on Sunday, April 27th, and it is attracting many dog owners all over Michigan, Indiana, and Ohio. All entry fees will be given in prizes, and two trophies will be given to the first line and tree dogs. George Nyström of Cadillac will have charge of this feature, and a record number of entries is promised.

PLAN THUNDER BAY CANOE RACE AGAIN

ALPENA - The cream of the continent's canoe racers are expected to converge on this Huron Shore community for the annual running of the Thunder Bay Midwestern Canoe Championship, July 4.

The canoe classic, which last year attracted 60 crack paddlers representing five states and Canada, will highlight Fourth of July Festivals in both Hillman and Alpena. The race is scheduled to start at the upriver village at 10:00 a. m. July 4 and will finish at Alpena, some 50 miles downriver, less than seven hours later.

Last year, the team of Richard Peck and Harlow Thompson of Deer River, Minn., paced a strong field of contenders over the finish line in 6:18 for a new course record, top prize money and the beautiful Thunder Bay Trophy.

Three other Minnesota teams followed Thompson and Peck past the checkered flag to claim second, third and fourth place honors while a Quebec team, Paul Gilbert and Jean Lemay, nosed out Hugh and Frank Bissone of Oscoda, Michigan, Michigan's only serious threat.

Some 15 thousand spectators braved a day-long drizzle to follow the colorful event in 1951 and with the Midwestern Championship.
